The Law Regulating Newspapers and Periodicals.

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.

2. If subscribers order the discontinuance of their papers, the publisher may continue to send them until all arrearages are paid, and subscribers are responsible for all the numbers sent.

3. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills, and ordered their papers discontinued.

4. The Courts have decided that a refusal to take a newspaper or periodical from the Post Office without notifying the publisher, and the payment of all arrearages, is prima facie evidence of fraud.

5. Subscribers to newspapers or periodicals are liable to pay so long as the paper or periodical may be sent to the residence of the party at the time of subscription, unless notice is sent of a change or removal to the publication office.

California Mail Steamers via Panama, leave New York the 5th and 20th of each month.

Steamers via Nicaragua, leave New York on the 6th and 21st of each month.

The Havana steamers leave New York on the 3d, 12th, 18th, and 27th of each month, and Charleston on the 4th of each month.

The New York steamers of the 5th and 17th are the only ones under strict contract with government, to sail on their appointed days. Deviations are frequently made by the others, to avoid vexatious quarantines, &c.

A small contract with the Charleston steamers is kept up the year round.

The mails for California close at the Boston post-office at 2 P. M. on the 4th and 19th of every month, to go forward by the steamers leaving New York on the 5th and 20th.

The Overland Mail for California leaves St. Louis every Monday and Thursday. Letters designed for it should be marked "Overland, via St. Louis."

Letters [illegible] at the Bangor Post Office, by these steamers, may be expected the second day after the arrival in New York.

EATON'S ARITHMETIC.

BANGOR, Oct. 30, 1858.

At a meeting of the School Committee, held this evening, it was

ORDERED—That EATON'S ARITHMETIC be introduced into our Intermediate, Grammar and Select Schools, instead of Greenleaf's, now in use. (Attest:)

(Signed) FRED'K E. SHAW, Sec'y.

The decided satisfaction which this book gives in the school-room, and its unprecedented success, prove that it is a work of rare merit.

All those who are dissatisfied with the books now in use, are requested to give this an examination.

They will find it the most clear, concise, logical and practical treatise on written Arithmetic extant, following as it does the plan of Colburn's *First Lessons*—the two make a complete and popular series.

Copies furnished for examination on receipt of postage—16 cents—on application.

The Honey Blade Grass.

THE results which have been attained, by experiments in the cultivation of this newly imported species of product have awakened an interest among the farming classes, in many sections, never before equalled in the entire history of our agricultural industry. Facts, in regard to its valuable properties, which at first seemed almost incredible, have now been established, beyond the possibility of a doubt, and it is believed, by those best capable of judging of its merits, that its general introduction will add millions of dollars to our agricultural wealth. I have not the space here to enter into details, but will present briefly some of its advantages.

First—It will produce double the weight to the acre, in any soil, of any other kind of grass. From four to six tons per acre is not an uncommon yield, and I am in possession of sworn statements by disinterested and reliable persons, of a yield of over eight tons of good dry hay from a single acre, in soil where it was not possible to get more than one half the amount from any of the common grasses.

Second—The same weight possesses more nutriment, and, consequently, will sell for a larger price in the market, thus insuring the farmer more than double the return from his grounds that he could obtain from any other forage plant. The hay possesses also the more nutriment than timothy, and has sold for $15 per ton, where the price of timothy was but $10 or $12.

Third—Both hay and seed can be produced from the same crop, the hay being equally valuable as other hay after the seed is taken from it, while the seed is as valuable as the best of other grain, as a feed for horses, cattle, pigs, chickens, &c., and it is proved to be superior to linseed for the manufacture of oil and must always find a ready sale, at a fair price for this purpose.

Fourth—It may be sown about two months time, and can be sown on grounds where other crops have failed, either by drouth or other causes, and, at the same time, will yield a large return.

Fifth—In northern climates, where clover and other grasses are killed out by hard winters, this will yield a large crop, and in those sections of the South where other grasses will not thrive, at all, it will grow very prolific.

Sixth—It will stand all kinds of weather, and, whether the season be wet or dry, the farmer may always rely upon his *Honey Blade* as a sure crop.

These and other advantages are proved by facts which are endorsed by some of the first agriculturalists of the Union and cannot fail to carry conviction to every intelligent reader.

Having been engaged during the past year in the purchase and importation of the pure *Honey Blade Seed*, I have arranged to offer it for sale on such terms as will make it an object for every farmer and planter to interest himself, during the coming season, in its cultivation. It is put up in uniform bags of about sixteen pounds each, the amount being sufficient to seed one acre, and the price is Seven dollars delivered in New York or St. Louis.

Single bags, or lots, can be sent to any part of the country as freight or by express, and will be put up, delivered for transportation, and the proper arrangement made, free of charge.

Each bag is stamped with the Hungarian coat of arms, and the following lettering, "*Honey Blade Hungarian Grass Seed.*" It will be sold by agents in various sections, but parties should be careful of whom they purchase and secure the pure genuine seed; they are especially cautioned against the common Hungarian Grass Seed, as it is very far inferior to the HONEY BLADE.

An interesting pamphlet, containing all of the facts, and full particulars, will be furnished, free of charge, by me or any of my agents, upon application. I will state, as an indication of the interest which the subject is exciting, that nearly a quarter of a million of copies of this pamphlet have already been applied for.

Parties desiring to procure seed should order at once, as the indications are that the limited amount obtained will be exhausted long before the season of sowing has passed. Those who secure seed this year can realize a rich return, by producing seed to supply the demand of farmers and planters for sowing another year.

Orders should be sent directly to me, unless in the vicinity of New York, where they will be filled by J. M. EMERSON & Co., 408 Broadway, New York, General Agents.

Agricultural Houses, General Merchants, and any other parties properly situated, are invited to become agents after the sale of the *Honey Blade Seed*. Authority, with particulars, and from 50 to 100 pamphlets for distribution, will be furnished them by me or the New York Agency, on receipt of 25 cents, to prepay the package.

I am authorized to name the following well-known gentlemen as references: Hon. J. R. Barrett, President of the St. Louis Agricultural and Mechanical Association, Vice President of the National Agricultural Society, and Member of Congress elect from St. Louis; Gen. T. Tillman, Oxford, Md., President of the National Agricultural Society; John J. Anderson, Banker, St. Louis; John Riggan, Jr., Broker, St. Louis; and ex-Mayor Washington King, St. Louis.

United States and Foreign
PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,
13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, for applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured through prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 23, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the Office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, *Commissioner.*

From the Examiners of the Patent Office.

YOU HAD BETTER TRY MY MOTHER'S SALVE!

THIS CELEBRATED PREPARATION has obtained an enviable and world-wide reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this SALVE, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"MY MOTHER'S SALVE"

Is a PERFECT CHEMICAL COMPOUND, prepared from ROOTS, HERBS AND GUMS gathered from the forest, and possesses *Healing, Soothing and Pain-Relieving Virtues* never before combined in a Salve or Ointment.

"MY MOTHER'S SALVE"

Is SAFE AND EFFECTUAL, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a PERMANENT CURE.

"MY MOTHER'S SALVE"

In a BURN or SCALD takes out the fire, soothes the irritating pain and heals the wound more speedily and effectually than any other preparation.

"MY MOTHER'S SALVE"

Is worthy of confidence, and thousands, having used it and recommended it to their friends as a test of its worth. *Directions for using.*

"MY MOTHER'S SALVE"

are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proper one renewed at times as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with the Salve. In case of Cough, Tightness of the Lungs, Sore Throat and such like ails, rub as in case of Rheumatism. In any case of pain, a good result follows the use of this Salve. Prepared by A. M. BECK.

PERRY DAVIS' Vegetable Pain Killer!

REV. T. ALLEN, writing from Tavoy, Burmah, says:—"Within the past four years I have used and disposed of above five hundred bottles, but am now out. Please send me a fresh supply, (through the Mission Rooms) as soon as you can, say two hundred bottles. I dare not be without it myself, and there are endless calls for it, both by Karens and Burmans. I always take it with me into the jungles, and have frequent occasions to use it both on myself and others. One night while sleeping in an open Zayat, I was awoke by a most excruciating pain in my foot. On examination I found I had been bitten by a Centipede. I immediately applied the Pain Killer, and found instant relief. In less than an hour I was again asleep.

"Rev. H. L. Van Meter, of Bassein, India, writes:—Here let me assure you, that we prize your Pain Killer very highly. For the first two or three years of our residence in India we were ignorant of its valuable properties, and did not use it; but now would hardly feel safe without it for a single day. Only a few nights since Mrs. Van Meter was stung by a scorpion, and intense pain was instantly felt throughout the arm, and soon a numbness of the part followed. By the continued application of the Pain Killer for an hour or more, and at intervals during the night, the alarming symptoms were subdued, and in the morning only a slight soreness was felt in the finger. I gave it in a severe case of Fever and Ague, according to directions and it acted like a charm, breaking it up at once. The Karens have great confidence in it."

"Mr. W. E. Carpenter writes from Calcutta, 'Perry Davis' Vegetable Pain Killer is a very valuable medicine, and most people here that have used it entertain a high opinion of its worth.'"

BOMBAY, Dec. 4th, 1857.

Messrs. P. Davis & Son—Gentlemen: We have sold the shipment of Pain Killer, per ship Martha, and hope to close the consignment in a few days. Herewith find a draft for £, on the Mercantile Bank of India, London and China, to your credit. Hope to remit you soon for sales of balance. Yours truly,
DADABHOY, MERWANJEE & Co.

MELBOURNE, Australia, May 14, 1858.

Messrs. P. Davis & Son—Gents: The "Sir Isaac," with 54 boxes, and the "State of Maine," with 60 boxes, of your valuable Pain Killer, have arrived, and the Pain Killer is sold at 10s per dozen. Neither of the lots are landed yet, but we hope they will be in time for us to forward your account sales and remittance by this mail. These two shipments are divided among four different buyers, two of whom would each have taken the whole 200 boxes if we would allow it. This is the best commendation we can make on your Pain Killer. Send us frequent shipments. NAWELL, HOOPER & STEVENS.

Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your buildings at the same time, in case of fire or any other exigency. You can have it with or without the forcing pipe. Any person with a jack-knife can do all the repairing that it will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the first premium at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of Albert Noyes, Central Street, Bangor, where I shall remain for a few weeks. Town rights for sale.

WILSON'S HISTORY OF THE CONQUEST OF MEXICO. The work by Robert Anderson Wilson, which has been looked for with great interest was issued last week in very handsome style from the publishing houses of Jas Challen & Son, Philadelphia, and of Messrs Derby, Miller & Co. The two volumes in royal octavo (640 pages) are printed in clear and handsome type, and with bindings of substantial character, for sale in Bangor by Messrs Bugbee & Co

The author was recently Judge of Superior Court in California and is the author of Mexico and its Religion

The history of the Conquest of Mexico is always with a special interest, from the fact that the most romantic events and facts of the age are usually related upon and followed by Mr Prescott in the Conquest of Mexico and Peru. It is doubtless the case that not only the details of many of the romantic adventures of Cortez will be derived from certain private sketches of Cortez's life, but also from accurate detail of eye witnesses connected with the knowledge of the regions. These adventures in which are sufficiently wonderful when we view the nature and extent of the Conquest, and the character and resources of the conquered. Among the greatest compliments attached to the name of Cortez, as appears from Mr Wilson's work, are the stories of the opulence of the magnificence and the power of the Mexican empire at the time of the Conquest. The fourth section of the work which we have received has for the personal portraiture of Montezuma, who represented the wealth of the empire, the conquest and the author goes into a full description of the Spanish government, of the character of the early British historians who represent Montezuma as surrounded by every power and magnificence than attended the most brilliant courts of Europe.

As showing in few words the nature of Mr Wilson's book we will quote the following remarks in a note, under the first chapter and extracts from the work on Mexico and Religion. And with this extract we conclude our brief notice, having only called attention to the general character of the work, and alluded to the reader the interest which will be found in a perusal of its pages

The author affirms that the exploits and adventures of Cortez in the Valley of Mexico (as represented by the Mexicans and the current traditions of the Conquest) are the most romantic—that they involve revolutions of natural law—that they are in conflict with the most familiar principles of modern engineering. He says

Having before me the surveys and the levels of the American army engineers I have presumed to doubt that water ever ran up hill, but navigable canals were ever fed by backwater, that pyramids could rest on a foundation of mud and earth that a cubic twelve feet broad by twelve feet deep mostly below the water level was every day, by Indians with ordinary implements of gardens overflowed with mud of that bringing over as well in a single day 100 000 men were gathered from all parts of Mexico by almanac summons in the morning and after eight hours labor returned by the same path at night to their camp or that so large a besieging army as 150 000 men could be supported in a sandy valley, surrounded by high mountains

In answer to the question why such fables have so long passed for history, I have the ready answer, that the Inquisition controlled every printing office in Spain and her colonies, and its censors took good care that nothing should be printed against the exploits of Cortez whose banner was a Latin cross, and who had deposited a large portion of his plunder on the church, who had granted the nation a tax for holy wars by striking one of the richest of Spanish romances of history, and had indulged his Emperor to overlook his crimes by the removal of rich princes and rich provinces, so that by the favor of the Inquisition, a *Ribbalero* has come down upon us as a Christian hero.

THE POST OFFICE BILL.—In Committee of the Whole in the Senate on Thursday, Mr Yulee offered the amendment to the above bill. It provided for the abolition of the franking privilege and to furnish members of Congress with stamps in lieu thereof to the amount of $140. The right of franking documents is reserved to the Postmaster General, the First Assistant and Chief Clerk to the Auditor of the Post Office Department and to certain ex Presidents of the United States, and other special cases also now on file by enactment

The amendment increases the rates of postage from three to five cents for distances under three hundred miles and to ten cents for over that distance. At last accounts it was thought the bill could not pass the House

Rockabill and the hard and straightened circumstances living on the proceeds of his lectures and contributions to newspapers, eked out by the remnant of his wife's $20,000 most of which was lost in railroad investments in the United States. The $400 000 collected by him in all is said to have been expended on political objects, not a cent of it appropriated by Rockabill for his own use.

FROM UTAH.—A letter from Utah says that the Legislature has passed an act and it has been approved by the Governor, providing that persons serving on juries at all shall be paid two cents in silver per stone to be possessed of a certain amount of property, and shall be married. The bill virtually excludes for the present, at least, persons of Mormons from serving on juries.

RAPID INCREASE OF POPULATION.—One day last week a California paper announces the employee of Mr Langley, chief of the Bureau of Statistics for the county of Sacramento, had stopped at a house in San Francisco, leaving the bill and found himself confronted by the proprietor when the following dialogue ensued

"Will you be kind enough to furnish me with your name for the Directory?"

"Certainly, my name is—

Have you a family?

Yes a wife and seven children

Wait moment I'll go and see

In the course of five minutes the proprietor returned and joyfully remarked

"Here's another boy"

It seems that in the lady had just presented him with a son. The enterprising returned his knowledge on to a dinner off to gather some information. About half an hour afterwards he was returning through the same street when he heard a cry from the house of the gentleman above referred to, and on looking up, beheld a woman from the window of the house throwing out two boys

ASSERTION DEAD HEADS.—Rhoades occasion of complaining of dead heads, but no list put on sufficient rare in like the press. A straw shows which way the water says.—*London Atlas & Bee*

THE PRESS.—During the last session of Congress there were no less than 1,000 bills introduced, and the stenographers employed to report and write out the same, were required to give out each day 640 pages of printed matter, and to furnish the printers with clean copy. The average number of words in each bill was 1,000, and the average number of words in each page was 1,000. The average number of words in each bill was 1,000, and the average number of words in each page was 1,000.

"As the express train, with eight passenger cars and a baggage car, was coming past Williams Bridge under full headway a little before reached the iron bridge. It came to a broken rail. About six feet of the rail was broken out. Conductor Corse all was in the rear car at the time having almost finished taking tickets. The train was a rapid one, but the reverse was the fullest of all, as it contained about sixty passengers. After a sudden jolt a grind went of the passengers from their seats many crying out in alarm, and he perceived that the rear car was off the track and dragging. Instantly, however, he felt the coupling between that and the next car give way and the car rolled round, struck the rocky embankment bounded off again and then struck violently a second time, leaping back and forth like a pebble."

The Philadelphia adds, that many seats in the car were broken, but only one person, Mrs John Wheeler, of New York, was seriously injured.

BANGOR MILLS.—A new Post Office has been established at Bangor Mills, Aroostook County, Maine, and John Pierce, Esq., appointed Post Master

MILITARY BALL.—The Belfast City Greys Capt Thomas H Marshall will give a brilliant military and civil ball, at Powers Hall, on the evening of the 4th of March. The Committee of Arrangements embrace military gentlemen in Belfast, Bangor, Portland, Rockland, Augusta Camden, Searsport, Liberty, Castine and Brooks, and it will undoubtedly be a fine affair.

CUMBERLAND CONGREGATIONAL ASSOCIATION.—Rev Isaac Weston writes to the Mirror that there are but four members of the Association, now living who were members when the writer was licensed by that respectable body July 1817.) These are Rev. C. Bradley, Rev Asa Rand, Rev Enos Merrill, Rev, Josiah G Merrill

HOOKS SHOT.—The Rockland Spectator says

The store of Messrs John Bird & Co, at Blackington's Corner, in our city, having been broken into once or two of late, a watch had been kept for the rogue for two or three nights. On Wednesday night Mr Sidney Bird remained in the store, and at about two in the morning heard some one entering the cellar and immediately left the store and proceeded to the outside entrance of the cellar.—Here as he made himself visible to the burglar by passing the door or window, the rogue snapped a pistol at him, and ran as fast as he could to fire with a like result a moment after. Mr B was provided with a revolver and now thinking it time for prompt measures, fired in to the darkness and shot (the rascal through the right arm above the elbow, the ball passing between the two bones. This brought the fellow to terms and he was soon secured. The culprit was a mulatto, and was brought before the Municipal Court on Thursday, and ordered to give bonds in $300 for his appearance at court.

MISSING LETTERS.—The Oxford Democrat says

Quite recently, several sums of money have been missed in Fryeburg. Most of the letters containing the money thus lost, have been thrown sent from the office though no letter directed to that place has ever been received.

The bridge at this place is progressing finely. The abutments and piers are already completed, and a large portion of the timber for the frame work is about to be put on. The whole structure will probably be completed by the middle of April.—*Lewiston Falls Gas.*

FIRE.—A fire broke out at 3 o'clock last evening in the building on Central wharf occupied by C M. & A O Strout, corn and flour dealers Loor & Noel, sailmakers and others. The department succeeded in saving only the shell of the building. Messrs Poor & Neal, we believe made a total loss, probably insurance. We do not know the names of all the other occupants.—*Portland Advertiser*

The Livermore Falls Gazette says the new bridge over the Androscoggin at that place, is progressing finely and will be completed in April—cost $5000

DISASTER.—Bark Grand Turk, of Bluehill at New York from Hermuda, had her main above rudder sprung, sails split, both heavy weather, was ten days on the coast

PORTLAND FIRE DEPARTMENT.—Up to last Saturday the Portland fire department had not been in active service at a fire for three months. The hose had not been used during the time.

FIRE IN NEW GLOUCESTER.—On Friday morning 25th ult, the beautiful mansion, known as Perry's Hotel, near Shaker Mills was entirely consumed by fire. The proprietor, Mr O Perry and his family, were on a visit to the East at the time, and but a part of the furniture was saved. The out-buildings were damaged but very little, with the exception of the wood house which was connected with the porch. Loss estimated at $3500 no insurance. The fire is supposed to have been set for plunder.—*Argus*

THE WRECK OF SHIP ELIZABETH AT KENNEBUNK.—The ship Elizabeth, Capt Tot as Lord, reported ashore on Cedar Point, near Kennebunk, went ashore during the thick snow storm on Saturday between 12 and 1 o'clock but owing to the severity of the storm not known and passengers were not rescued until noon, 2 o'clock. The ship struck the rocks close to the flight house at the entrance of Kennebunk Harbor, and soon after bilged. The officers and crew, twenty one in all and the passengers, Mr Elder, wife and son, landed in the ship's boat and were taken immediately to the South shore House where they receive distinction as their wants demanded.

The ship lies on a rocky bottom, in an easy position, the wind having subsided and the sea quite smooth. The cargo will it is probably be saved, in a damaged state and the vessel should continue as she is, she may be got off but badly injured, as there is a large hole her through her bottom and she is somewhat strained.

The Elizabeth is a new ship of 1040 tons, built at Kennebunk, and was owned by George Calender and others valued at $50 000 and insured for that amount. The freight is also insured for $10 000. She was on her first voyage.—*Boston Journal*

SCENES IN THE WISCONSIN LEGISLATURE.—The Madison correspondent of the Milwaukie News thus writes

This afternoon, after the Assembly had adjourned and both Houses in session, some interested individuals undertook to salute Messrs Jefferson Davis and Toombs on their arrival in the city. A company got up to work an old six pounder, as it was then building, and they had done some firing towards clearing out the drifts. As the company started at Lincoln and Hamilton streets, a large piece of land, poor and several miles and a half now working a new vein, which is said to be the richest known mine in the world. They have found, already some ore to the surface that yielded 63 per cent, or $20 000 per ton, and the average has been over $1 000 per ton of all that has been smelted. They are putting up extensive amalgamating works with which they expect to turn out as far as $60,000 per day.

The mines are incorporated, and has a capital of $1 000 000 but have still no more stock than is necessary to raise money for the work. The company now employ 100 hands, mainly Mexicans, Indians, Irishmen, and to the number of that, here is one to the Americans of a dozen or two, but these last scarce try of miner to run the machinery. The old mines, were worked for a hundred years by Spaniards but they were driven off by the Apache Indians about thirty years ago, since which the old veins have not been opened. There is no danger from the Indians now, although they occasionally steal cattle.—*N Y Tribune*

It is barely possible that the above information may have been forwarded in order to get up an emigration, or to influence other mining stock

RAILROAD ACCIDENT AND REMARKABLE ESCAPE.—The express train from New York for Boston, reached Providence with no accident beyond New Haven at which the Pullman cars were annexed as usual.

"As the express train, with eight passenger cars and a baggage car, was coming past Williams Bridge under full headway a little before reached the iron bridge. It came to a broken rail. About six feet of the rail was broken out. Conductor Corse all was in the rear car at the time having almost finished taking tickets. The train was a rapid one, but the reverse was the fullest of all, as it contained about sixty passengers. After a sudden jolt a grind went of the passengers from their seats many crying out in alarm, and he perceived that the rear car was off the track and dragging. Instantly, however, he felt the coupling between that and the next car give way and the car rolled round, struck the rocky embankment bounded off again and then struck violently a second time, leaping back and forth like a pebble."

The Philadelphia adds, that many seats in the car were broken, but only one person, Mrs John Wheeler, of New York, was seriously injured.

STATE COURTESY IN NEW ENGLAND.—A sensitive New Englander writing from Massachusetts, lost "didn't acknowledge himself caught, and asks if he was not justified by the circumstances in which he related, "We say he was. Here is his case.—*Portland Argus*

"Well, sir, that Mary ought the next night, which is not a leaping so fearfully. I heard her express a wish for a pair of skates and the next day she had the best pair that could be found in the city, and nobody knew who sent them to her. We went down upon the ice, and there that little Mary, just as quietly down, ordered me on my knees, and quietly placed that foot, the foot in my lap, and bid me put on her skates. I felt very queer—but I buckled on the skates and stood up with Mary by my side. Have you ever taught a woman to skate? No, well let me tell you. You've seen a kaleidoscope, with a few old bits of glass etc, in a box, and turning it have seen all sorts of beautiful figures.

Just imagine a kaleidoscope, and in place of beads and thousand glass, please substitute blue eyes, curly eyelashes lips, ivory wavy hair crinoline under boots, zephyr worsted, dup de, hearts, darts, a clap of thunder, a flash of lightning and said Nick imagine your self the center of seventeen wax figures all things involving round you, and a violet bank breathing sighs upon you all the while, and you have no idea of Mary and her victim in the first skating lesson. Mary and I start—she on my left arm—all right. First, Mary a dear little better boots present themselves to my astonished vision. Next, one—wavy hair, with a thirty dollar bonnet, and a divine head, comes pitching into my waistcoat, with such force that I feel the button against my chin.

Next—Mary gives up at me right between my jack boots, and then, her blushed little nose is thrust into my shirt bosom. Ah! my mind all research and study on the mysterious subject of woman has been comparatively vain to me in the ever vital year of 1859. In fashion of skating, has opened new & various resources of information. Do you remember your first attempt at driving tandem? Do you remember how the perverse beast that you selected for a leader, would insist on turning short round and staring you in the face as if to ask, sweet, the deuce you'd be at! Well just you go and try a woman on skates, that's all—just try it! Ah won't you come to the conclusion that women have sundry and divers ways of accomplishing their object. Dear Mary! I forgive myself to her every mischief she came round! I am here

MR BROWN'S MISHAP.

Mr Elphalet Brown was a beach lor of the five or thereabouts, one of the women who seem to be born to pass through the world alone. Save the precarious privilege of occasionally thrown a nothing old slinguish Mr Brown from the multitude of other Browns who are born, grow up and die in this world of care!

It chanced that Mr Brown had occasion to visit a town some fifty miles distant, on matters of business. It was his first visit to the place, and he proposed a sopping for a day in order to give himself an opportunity to look about.

Walking in surely along the street he was almost one to accost by a child of five who ran up to him exclaiming,

"Father I want you to buy me some more toys."

Father! was it possible that he, a bachelor was addressed by that title? He could not believe it.

"Who were you speaking to my dear?" he inquired of the little girl.

"I spoke to you father and the lady to surprised.

Really, though Mr Brown this is somewhat amazing.

"I am not your father, my dear. Indeed what is your name?"

The child laughed heartily evidently thinking it a good joke.

"What a funny father you are also as but you are going to buy me some candy?"

"Yes, you if I be you a pound if you won't call me father any more, said Brown irritably.

The little girl clasped her hands with delight. The price was all sufficient.

Mr Brown proceeded to a confectionary store and speedily bought a pound of candy which he placed in the hands of the little girl.

In coming out of the store, the confectioner's child ran to meet her.

"Oh mother, mother!" the little girl, "just see how much candy mother has bought me."

"Goodness! exclaimed the lady, which—which is my husband?"

Ah explanation was given the mystery cleared up, and Mr Brown's embarrassment was complete. It was strictly between Mr Brown and his wife.

Mr Brown has not since visited the place where this Comedy of Life happened. He is afraid of losing his identity.

Congressional.

WASHINGTON, 28th.

SENATE—Mr Pugh moved to take up the Somes bill—negatived 26 to 29.

Mr Houston made his parting speech, reviewing and vindicating his Congressional course.

Committees of Conference were appointed to meet the House on the Legislative, Executive and Judicial appropriation bills.

Mr Houston made his farewell address to the Senate. He had been 46 years in public life, and he would leave it to posterity to determine how he had spent it, and was content to stand on the foundation where it had placed him. He embraced the occasion to rebut the calumnies by which he was assailed by persons animated by the deepest malignity, and especially cited Rev. James R. Perry of New York, who had recently lectured on the battle of San Jacinto, who had been for twelve years zealously defaming his character, although it was owing to his (Houston's) clemency that Perry was not executed for holding communication with the enemy. Mr Houston concluded by a tribute to the great ability of his associates in the Senate, and expressing the hope that light knowledge and patriotism may guide them, and that under the influence and exertions, peace and prosperity may be secured to the latest posterity.

Post Office appropriation bill was taken up. Its appropriations amount to $ [illegible]0,600,000, including $3,500,000 deficiency of present fiscal year. It was discussed at great length.

After much discussion the 3d section was stricken out and in lieu thereof was inserted a section providing that the sum of $6,000,000 be appropriated from the treasury to meet the deficiencies of the fiscal year commencing July 1st, 1859, but that the Postmaster shall in no event expend or incur any liabilities whatever over the appropriations for the current fiscal year adopted. About six hours were spent in the discussion of the bill and amendments thereto.

The debate was uninteresting and much confusion prevailed throughout the proceedings.

HOUSE—The business commenced with a personal explanation between Messrs. Reagan and Bryan with reference to a recent discussion.

Mr Reagan wanted to know whether Mr Bryan intended to impute dishonorable motives to him.

Mr Bryan replied that if his colleague felt aggrieved he knew where he could wright the wrongs. He (Bryan) was responsible here as elsewhere for what he said.

Mr Reagan then went on to state that his colleague had sought to place him in a false position by representing that he was not a good Southern man.

Much excitement prevailed during the colloquy.

The House took up the naval appropriation bill, and concurred in Mr Sherman's amendment reducing the appropriation for repairs, armaments, etc. of steamers, from $3,100,000 to $1,000,000—the vote was 122 to 66.

The amendment reducing the appropriation for navy yards from $1,200,000 to $15,000 was also concurred in by 58 majority. The bill was then passed.

Mr Phelps asked leave to report a bill to revive for two years, the act authorizing the issue of treasury notes, but the House refused.

Mr Phelps then moved to go into committee on the miscellaneous appropriation bill, which was agreed to.

Mr Washburn of Wis., moved to strike out the appropriation of $250,000 for the survey of the Atlantic and gulf coast.

WASHINGTON, 28th.

For more than a year there have been floating rumors of improper intimacy between Mr. Key and Mrs Sickles. They have frequently attended parties to the opera and rode out together. Mr Sickles has heard of these reports but would never credit them until Thursday evening last. On that evening just as a party was about breaking up at his house, Mr Sickles received amongst his papers an anonymous letter which informed him of the infidelity of his wife, of her intimacy with Mr Key, and the place of rendezvous. The letter was so plausible in its statements and gave such precise directions for the detection of the parties in their clandestine meetings that Mr Sickles decided to investigate the facts. Accordingly he placed the letter in the hands of his most intimate friends, who last evening possessed themselves of evidence satisfactory to Mr Sickles that Mr Key had rented a house of a negro in 15th street which he used as a place of rendezvous with Mrs Sickles. On Sunday morning being in great agony of mind, Mr Sickles in the presence of two witnesses charged his wife with having had illicit intercourse with Mr Key. At first Mrs Sickles declared her innocence. Mr Sickles then paraded before her the evidence of her guilt. She became overwhelmed with the sudden arraignment, fainted and finally confessed her guilt. Mr Sickles was not satisfied with this verbal confession, but desired Mrs Sickles to make a confession in writing. She complied and also informed him how often Mr Key had been in the habit of seeing her, and his mode of telegraphing to her by a wave of the handkerchief when he wanted her to come out. Mr Sickles' house is on No. 7 President's Square, in view of Jackson's statue which is opposite the White House, and a full view of Mr Sickle's residence, on the other side of the square in front of the Washington Club House where Mr Key frequented and from the windows of which Mrs Sickles says he was in the habit of telegraphing her with his white handkerchief. If Mr Sickles was absent she was in the habit of returning the signal.

About two o'clock, Sunday, Mr Sickles saw Mr Key come out of the Club House, and go round the square and walk past his (Sickles) house two or three times. He made the signal for Mrs. Sickles once or twice, when Mr Sickles armed himself with a five barrel revolver and two single barrel derringers, which carry each a ball double the size of the revolver, went out of his house and walked down past the President's, and met Mr. Key. The latter greeted the former, and was about offering him his hand, when Mr Sickles, refusing to take Mr Key's hand, said: "Sir, you have dishonored me: prepare to die." Mr Key started back a few feet, exclaiming: "What for? what for? Don't! don't!" and made a movement as if seeking for a weapon in his left breast, but which proved to be an opera glass, which he threw at Sickles. Mr Sickles then drew one of his derringers and shot Mr Key, who staggered some; Mr Sickles shot at Mr Key again with his second derringer, which sent Key reeling against a tree; he cried out murder, when Mr Sickles fired a third time, from his revolver, and Mr Key fell, Mr Sickles believing him dying, desisted and did not fire again.

Mr Samuel F. Butterworth, Sup't of the Assay Office, New York, was conversing with Mr Key when Mr Sickles came up, and witnessed the affair, and then went with Mr Sickles to the office of U. S. Attorney General Black. He expressed a desire to surrender himself, and accordingly sent for the Mayor, the Marshal of the District being absent, and accompany with that magistrate rode in his carriage to the District jail.

Immediately after the shooting the body of Mr Key was picked up and conveyed into the Club House from which he was in the habit of telegraphing to Mrs Sickles.

One shot took effect in the groin, the ball passing through the body to the skin at the back, where it remains; another entered the right chest, and the third grazed the skin immediately outside where the first ball lodged.

The examination concerning the killing of Mr Key did not take place to-day, as was anticipated.

Mr Sickles has retained as counsel Mr Stanton of Pittsburg, Mr Chilton, Mr Ratcliffe, and reports say others, including David Paul Brown.

Through the intervention of a friend Mr Sickles has consented that for the present Mrs Sickles and their child shall remain with her mother, who has been telegraphed, and is expected to arrive here to night.

The jail was to-day visited by many of Sickles' friends.

Numerous rumors are afloat concerning all the parties, having the effect to aggravate the facts, already painfully distressing, and many of the reports are pure fiction.

The select committee appointed at the last session to examine the accounts and conduct of Jas. C. Allen, the former clerk of the House acquit him of any corruption or dishonesty in the discharge of his duties. They have reported the facts connected with the jury charge, which on investigation was found worth attention. In some cases the committee thought that more care might have been exercised, but this amounted to no more than a failure to correct an existing abuse.

In the Circuit Court, this morning, Mr Carlisle announced the death of Mr. Key, eulogizing him as a courteous, frank and open hearted gentleman, not forbearing to speak of the cause which led to his death. The Court spoke in a similar strain, and as a token of respect, adjourned to Thursday.

Much interest is manifested with regard to the organization of the next House in view of the probability of an extra session. Several gentlemen of the opposition are spoken of for the various offices, and prominent among them Edward Ball, an ex-member from Ohio, who is now here, is named for Clerk.

The naval bill which passed the House to-day, proposed as it was originally reported to appropriate about ten and a half million dollars but it was cut down to extent of two and a quarter millions. It appropriates $574,000 for completing of the seven sloops-of-war and side wheel steamers heretofore authorized.

BOSTON, 28th.

The ball of the Boston Light Infantry at Boston Theatre to-night is one of the most brilliant social gatherings that has ever taken place here. Gov. Banks and staff, many of the high military officials of the State, officers of the army and navy, with delegations from the military of New York, Rhode Island, Maine and other places were present. The theatre was admirably decorated and the entire affair exceedingly elegant and imposing.

NEW YORK, 28th.

The steamer Black Warrior still lies in an exposed situation, and will go to pieces. A large quantity of her cargo floated ashore yesterday, at Rockaway. The boiler attached to the steam pumps, on board of her, exploded yesterday, demolishing her upper deck, and seriously injuring the engineer.

Latest accounts from the Black Warrior state she has gone to pieces.

LEGISLATURE OF MAINE.

SATURDAY, Feb. 26.

In the Senate.

Mr Marshall, from the Committee on Banks and Banking, reported a bill to increase the capital stock of the Veazie Bank, Bangor—Read and on Monday assigned.

Read and assigned—Bill relating to attachments on Real Estate.

Passed to be engrossed—bill in relation to the powers of Notaries Public; bill to incorporate the town of Presque Isle.

In the House.

Papers presented and referred—Remonstrance of J. Demeritt and 70 others against the incorporation of Danforth [illegible].

Twice read and assigned—An act to amend chapter 77 of the Revised Statutes, relating to Reporter of decisions of the Supreme Judicial Court.

Passed to be engrossed—An act authorizing the extension of wharves into the tide waters at Brewer; and act to punish for [illegible]; an act to amend section 34 of chapter 76 of the Revised Statutes, relating to adjournment of sales by officers in certain cases; and act to provide in part for the expenditures of government.

Mr Dow of Port[illegible] asked and obtained leave to present bill act relating to embezzlement in certain cases. Laid over under the rule.

On motion of Mr Pike of Calais, the appropriation bill was taken up.

Mr Horton of Dexter moved to amend by striking out $3000 from the amount for Reports of judicial decisions, and that the remaining sum be especially appropriated to the payment for the 42d volume. Mr Horton addressed the House.

The debate was continued by Messrs. Prentiss of Bangor, Gilbert of Bath, Pearce of Meddybemps, and Pike of Calais. The bill was amended and passed to be engrossed.

Bill relating to salaries of members of the Legislature was considered.

After much discussion the House adjourned before any action was taken upon it.

MORE COMPLIMENTARY THAN THE LAW ALLOWS. Several enthusiastic young gentlemen were recently expelled from the Strand Theatre, in London, for throwing very extraordinary wreaths of flowers upon the stage, in honor of a popular actress, Miss Selby.

The principal amusement of the miners at Pike's Peak is said to be playing cards and drinking bad whiskey—the latter selling at $10 per gallon.

ARRIVAL OF DISTINGUISHED FOREIGNERS.—Two distinguished Europeans have arrived in the New World almost simultaneously. Richard Cobden, the celebrated English statesman, distinguished for his efforts to secure the repeal of the corn laws, and Smith O'Brien, the renowned Irish leader and orator. The latter arrived in New York on Friday and was publicly received, and the former reached Boston on Saturday in the Canada.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer

Chesapeake,

Capt. SIDNEY CROWELL, will run regularly between *New York* and *Portland*, as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 4 P.M., and returning, leaves New York, Pier 12 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine.

PASSAGE $5.00—including Fare and State Rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John. Also connects with steamers for Baltimore. Goods taken through with despatch at the cheapest rates.

Shippers are requested to send their freight to the Boat before 3 P.M. on the day that she leaves Portland.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agency of the United States Mail Line, as below.

By order of the Postmaster General, the United States Mail steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamer *without any extra expense*. This is the only line giving entire Through Tickets, guaranteed to detent on on the Isthmus.

Transit is but *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamers will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a sure and *short* passage, with the greatest comfort and safety to health.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the U. S. and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise soften the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

Manufactured by D. C. LINCOLN, *Woonsfield, Me.*

THE HATCH HOUSE, Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premium wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable management of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenient for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

For hives, individual rights, &c., address,

E. S. TORREY, Fifth street, Bangor.

DR. HOBENSACK'S Worm Syrup and Liver Pills.

PROBABLY the persons by Worm Medicines so frequently fail of any good effect, is the fact that they contain no qualities except as *Worm Killers*. Consequently in many instances where we mistake the symptoms of disease and doctor for worms, when the cause of disease is not worms, but a *deranged state of the system, and consequently of health, no good results follows*, whereas in the use of *Dr. Hobensack's medicine, just as well as their remedial agent*, as well as *worm killer*, the patient immediately gets well, though no worms are brought away.

This it will be readily seen that it possesses *many advantages* over other worm medicines, as it is not only sure to kill and bring away the worms, but builds up and restores the patient to general health. *Periodical*.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office 70 Wall-st.

A Perfect Security against all manner of Fraud of Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint; Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths; 40 cts. a lb.

For Indentures and Agreements 40 cts. a lb.

All State and County Records should always be printed or written on this paper as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the ink and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which eat on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

American & Foreign Patents

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington under the Act of 1837.

76 State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,

Late Commissioner of Patents."

Boston, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGERT."

From Sept. 17, 1857 to June 17, 1858, the subscriber, in course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

READ! READ!! READ!!!

Many persons suffer severely by sore or weak eyes. The reflection of the sun on the snow almost blinds them, their eyes water when they are exposed to sunlight, wind, or have to travel or ride in the open air, a strong light blinds them, they suffer a smarting, burning sensation, as if dust was thrown in the eye; they are unable to read or write by gas or lamp light. All those troubles can be remedied by the use of

Dr. Pettit's American Eye Salve.

THE LIVER INVIGORATOR!

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, *purifying the blood*, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured, and, what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents *nightmare*.

Only one dose taken at night loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure *Dyspepsia*.

One dose of two teaspoonfuls will always relieve *Sick Headache*.

Only one dose immediately relieves *Cholic*, while

One dose often repeated is a sure cure for *Cholera Morbus*, and a preventive of *Cholera*.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for *Jaundice* removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures *Chronic Diarrhœa* in its worst forms, while *Summer and Bowel Complaints* yield almost to the first dose.

A few bottles will cure *Dropsy*, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for *Fever and Ague, Chill Fever*, and all Fevers of a *Bilious* type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.

Important to Horse Owners.

PORTSMOUTH, N. H., May 20, 1858.

T. C. Butler, Esq.

Dear Sir:—During the past year I have sold some 300 packages of your Miller's Condition Powders, for Horses and Colts, and in no instance that I have heard of, have they failed of giving entire satisfaction.

I regard them as standing at the head of all Horse medicines now in the market, and am sustained in this opinion by all the stable keepers and owners of horses who have used them in this vicinity.

I cheerfully give my testimony in favor of your Powders, and advise all interested to give them a trial. Very respectfully yours,

(Signed) WILLIAM R. PRESTON, Apothecary.

The Boston Journal

FOR 1859.

"The Favorite Paper of New England."

Published Daily, Semi-Weekly and Weekly.

Payment invariably in advance.

In announcing the terms for THE JOURNAL for 1859, the proprietor deems it unnecessary to criticise its peculiar characteristics as a popular newspaper, or to make any special promises for the future. He deems it sufficient to say, that what

THE BOSTON JOURNAL,

has been in the past it will be in the *future*. By the almost unanimous consent of its contemporaries throughout New England, it stands at the head of the New England Press in all those qualities which go to make up a reliable, entertaining *live newspaper*. This position it has attained by pursuing a steady, straight-forward course in all respects, and by sparing neither labor nor money to give the latest intelligence and the fullest reports of all matters of interest at the earliest moment. It has relied upon its own merits, and not upon the representations of canvassers or "drummers" to gain for it the confidence and patronage of the Public—and the result has been that *it has now a circulation nearly three times as large as that of any paper of its class in New England*—and it is constantly and steadily increasing. The proprietor intends to the employment of experienced and competent men in all the departments of the establishment, and by the most liberal outlay of money in the procuring of important news from all quarters, to make THE JOURNAL still more worthy the name of "*the favorite paper of New England.*" And with this simple announcement he asks the attention of newspaper readers and newspaper dealers throughout New England to the following statement of the terms for the several editions of THE JOURNAL:

BOSTON DAILY JOURNAL,

Morning and Evening,

Contains the latest news received by the mails and telegraph up to the hour of going to press. It is printed on one of *Hoe's Ten Cylinder Presses*, at the rate of FIFTEEN THOUSAND an hour, which enables us to hold back the editions until the very latest moment and still work the edition in season for the mails and expresses. It is published at the low rate of

Six Dollars a year. Single Copies two cents.

SEMI-WEEKLY JOURNAL

Tuesday and Friday Mornings,

Contains all the reading matter published in the DAILY JOURNAL for the three days preceding—averaging from *thirty-one to thirty-two columns*. The subscription price of the Semi-Weekly Journal is

Three Dollars a Year.

TO CLUBS.

Five copies, one year, ... $12
Ten copies, one year, ... 20

To business men in the country who desire a Daily paper, the Semi-Weekly is invaluable.

BOSTON WEEKLY JOURNAL

Great Success of the Club Plan.

Three years ago, the proprietor of the Journal decided to reduce the price of the Weekly Journal, and the success of the low price club plan has been so great as to induce the following rates for 1859:

One copy, one year, ... $2
Two copies, one year, to one address, ... 3
Five copies, one year, to one address, ... 5
Ten copies, one year, to one address, ...
And one copy to the getter up of the club.
Twenty copies one year to one address, ...
and two copies to the getter up of the club.

PAYMENT TO BE MADE

INVARIABLY IN ADVANCE.

At the expiration of the time for which payment has been received, the paper will in all cases be stopped.

The great success which has attended the introduction of the Club plan in the circulation of the Weekly Journal, and which has nearly

Trebled its Circulation

since its adoption, encourages its proprietor to continue the same plan. He would respectfully suggest to those who are about selecting their paper for the ensuing year, that there is no paper to their age of the *best family newspaper in New England*, at a very low rate—one which within the reach of every one.

The present season is a favorable one for the organization of Clubs for subscription to the Journal. One enterprising man in each town and village can, with very little trouble, get up a Club of ten or more persons, and thus get his own paper for nothing.

THE JOURNAL FOR CALIFORNIA

Is printed on the 4th and 19th of each month, for mailing by the steamers of the 5th and 20th. It is made up with the greatest care, for the information of New England men in California. Over *twelve thousand copies* are now being sent there, which is a much larger circulation than any other paper printed in the Atlantic States has. It is mailed at the office for 6 cents a copy. A person sending one dollar can have one each of sixteen numbers sent to any one they may desire.

TO ADVERTISERS

As an advertising medium THE JOURNAL has no equal in New England. The cash, or pre-paid, uniform system of yearly advertising has been entirely abolished, and a new and uniform system of prices adopted, by which each advertiser pays for the room occupied in the paper, and no more. Advertisements may be left at the Counting Room, or sent by mail or otherwise, with perfect confidence that the price charged will conform exactly to the published rates, and that they will be inserted on precisely the same terms as though handed in in person, and a saving made in advance. No "Drummers" are or ever have been employed to solicit advertisements, and no discount from the regular rate of prices is ever allowed, however large the amount advertised. These considerations, combined with the fact that its circulation is nearly

Three Times as Large

As any subscription of Two Cent Daily Paper published in Boston, and that all advertisements appear in both the MORNING and EVENING papers, renders it a favorite medium of communicating with the public among the most intelligent and enterprising advertisers.

The BOSTON JOURNAL is for sale at all the Newspaper and Periodical Depots in Boston and all the principal cities and towns throughout New England, and in the cars of all the principal railroads leading from Boston. It is delivered by regular carriers at the residences and places of business of the citizens of the larger cities, such as Worcester, Salem, Lynn, New Bedford, Newburyport, Lowell, Lawrence, Providence, Portland, Me., Bangor, Me., Concord, N. H., and in the adjoining cities of Roxbury, Charlestown, Chelsea and Cambridge, with the same regularity and promptitude, and in the same manner, as it is in Boston.

Orders for either of the editions of the JOURNAL must be *invariably* accompanied by the cash and should be addressed to

CHARLES O. ROGERS,
22 State Street, Boston.

To newspapers that may copy this prospectus with an editorial notice directing attention to it, and send a copy *marked* to this office, we will send the Daily Journal for one year.
